<sup>a</sup> 1966–1967 Interim is the first book in which the standards appear numerically. Previous editions grouped the standards in sequential order according to Tech Section/Subject Matter.

<sup>b</sup> 1971 10<sup>th</sup> Edition is the first book to include the AASHTO/ASTM equivalency pages in the front matter and a standard practice.

<sup>c</sup> Due to copyright dispute instigated by ASTM, no ASTM standards were reprinted in the 1995 edition; only the cover pages with AASHTO exceptions were printed for the following standards: M 17, M 91, M 92, M 107, M 108, M 114, M 118, M 120, M 121, M 132, M 138/M 138M, M 140, M 143, M 144, M 156, M 160/M 160M, M 164/M 164M, M 173, M 191, M 198, M 220, M 238, M 253/M 253M, M 264, M 268, M 282, M 284/M 284M, M 291/M 291M, M 293, M 297, M 298, M 299, M 301, M 315/M 315M, R 1, R 5, R 11, R 14, T 2, T 32, T 40, T 42, T 47, T 48, T 49, T 50, T 51, T 53, T 55, T 59, T 60, T 61, T 62, T 67, T 68, T 70, T 72, T 73, T 74, T 78, T 80, T 81, T 82, T 83, T 96, T 115, T 134, T 143, T 151, T 165, T 167, T 168, T 172, T 187, T 200, T 201, T 202, T 215, T 227, T 228, T 229, T 235, T 266, and T 297.

This was also the edition in which the conversion to metric and/or dual unit standards as mandated by Congress began.

<sup>d</sup> ASTM standards removed in 17th edition were re-instated. According to the agreement, ownership of each standard was based on which organization funded the research of the standard. The standards were categorized as follows:

- A standards—AASHTO owned
- B standards—Jointly owned by both ASTM and AASHTO (both logos appeared on the standard)
- C standards—ASTM owned (but which AASHTO printed, for a fee, the ASTM standard with an “AASHTO’s exceptions” cover sheet)

<sup>e</sup> Added first chart of revisions to front matter in 2004.

<sup>f</sup> Beginning with the 2016 edition, the book was published in electronic format only. As part of this change, it was sub-divided into three topic areas, which were released throughout the summer, as follows:

- Release 1 (April)—Hydraulic Cement and Lime; Fresh Concrete; Hardened Concrete; Pavement Measurement; Bridge and Pavement Preservation; and Quality Assurance and Environmental.
- Release 2 (June)—General Manufactured Materials.
- Release 3 (August)—Geotechnical; and Bituminous Materials and Mixtures.

Standards belonging to topic areas not included in a given release are carried over from their most recent release.

With multiple releases throughout the summer, edition numbering was no longer used.
