The Materials Standards are now available as a web-based edition that includes several enhanced features. Following is a description of these features, and information on purchasing a subscription.

FEATURES OF THE WEB-BASED MATERIALS STANDARDS

Annual Online Subscription

The web-based Materials Standards are available as an annual, online subscription. Once you purchase a subscription, you will have immediate online access, with nothing to download or install. As a current subscriber, you automatically receive access to all updates published during your subscription period.

More Frequent Annual Updates

The Materials Standards are now updated three times annually—in April, June, and August—with updates grouped by subject areas.

- ◆ **The April Update** revises the sections on Hydraulic Cement and Lime, Fresh Concrete, Hardened Concrete, Pavement Measurement, Bridge and Pavement Preservation, and Quality Assurance and Environmental.
- ◆ **The June Update** revises the sections on General Manufactured Materials, including Concrete Drainage Structures, Flexible and Metallic Pipe, Markings and Coatings, and Safety Devices.
- ◆ **The August Update** revises the sections on Geotechnical, and Bituminous Materials and Mixtures.

Access to Previous Editions

As a subscriber, not only do you have access to the current Materials Standards and all published updates, you can also access recent past editions of the Standards, with changes between editions highlighted for easy reference.

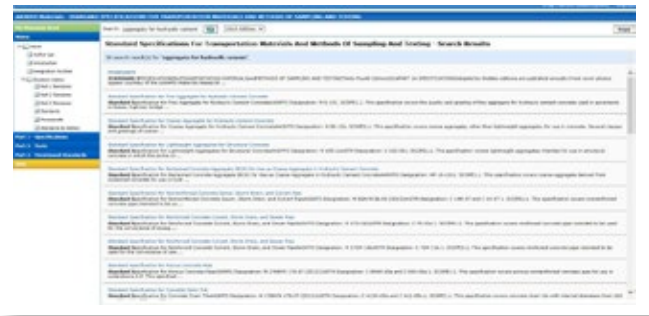

Single- and Multiple-User Licenses

You may purchase the Materials Standards as either a single-user license, or choose among several multiple-user to best accommodate your organization's needs. Multiple-user licenses offer **deeper price discounts**, ranging from a **25% discount for a two-user license, a 33% discount for a three-user license, and a nearly 40% discount for a twenty-five-user license.**

ADDITIONAL ENHANCED FEATURES
