Ready-to-Go Projects, 2010 Survey of the States

Highlights

- All 50 states and the District of Columbia reported data.
- 9,857 highway, transit, rail, port, and aviation projects valued at \$79.41 billion.
- Ready-to-go means a project can move through the federal approval process within 120 days of enactment of authorizing legislation, thus enabling the State to proceed toward construction. (See back page for entire process.)
- Includes the following job-creation projects:
 - 7,558 highway projects estimated at \$49.13 billion
 - 994 transit projects estimated at \$11.56 billion
 - 292 rail projects estimated at \$8.69 billion
 - 92 port projects estimated at \$1.24 billion
 - 655 aviation projects estimated at \$2.16 billion
 - 266 intermodal projects estimated at \$6.63 billion (Intermodal category used by some states for intermodal freight or passenger projects; it also includes other transit, rail, port, and aviation projects not noted elsewhere.)

"We need to keep the momentum going. The unemployment rate in the construction trades today exceeds 18 percent. There is still a need to invest more in transportation projects if that's what it takes to create jobs and bring unemployment down. What the state DOTs have done over the past eight months to put economic recovery dollars to work shows there is no better way to create jobs and long-lasting benefits in every part of the country."

John Horsley
