The following work plan was updated at the MTAP Annual Meeting in Tampa, Florida.

INTRODUCTION

The purpose of AASHTO’s Multi-State Technical Assistance Program (MTAP) is to provide a forum through which state-level public transportation agencies can communicate with each other about federal transit regulations, grant program management, and technical issues pertaining to everyday administration of public transportation service. The MTAP program was developed to benefit the member states as well as their federal program counterparts and local transit operators. Currently, 43 states are members of the MTAP program. MTAP is administered by a ten-member Project Steering Group (PSG). PSG members are elected to three-year terms by the general membership. The PSG directs the work activities of the MTAP Coordinator at AASHTO headquarters.

This plan covers activities for the period July 1, 2005 – June 30, 2006. This work plan also includes projects expected to be completed in spring 2005.

WORK PLAN TASKS

MTAP COMMUNICATION

Newsletters & Alerts
PSG Oversight: Rachel Beyerle, MTAP Coordinator

Task

• Maintain quarterly MTAP newsletter. Provide newsletter in pdf format by electronic mail and the MTAP website.
