1) Performance Measures

- a) Date test deck installed –
 - i) GA 2004 Installed 10/4 – 10/5
 - ii) OH 2004 Installed 9/14 & 9/15
- b) Date interim report due – 1 year markers have been pulled and will be tested by FL and report should be finished by the end of the year.

2) Reports

- a) Status on RPM 4007.1 (2003 1st Year GA Interim) Report
 - i) 1 year markers have been pulled and will be tested by FL and report should be finished by the end of the year.

3) DataMine

- a) Status Report – Mike will talk with Riaz. Plan to have a skeleton of RPM module ready by May 2005. Headley suggested that a field be established in the data that links to the specific work plan that was used for the deck, that will also be available on the site.

4) Old Business

- a) During the six month evaluation, it was noted that a few areas within the test deck on the asphalt section did have a vehicle that came through dragging something that may have compromised some of the markers. Georgia scheduled another lane closure during the 1 year evaluation to allow manufacturers to come down and assist in the assessment of the condition of the test deck.
- b) About 20 markers were damaged, there are still plenty of markers available and a note will be made in the report

5) New Business

- a) Chip Seal Markers were evaluated in 2004 and a report will be published in addition to the regular report.
- b) Work Plan Revisions
 - i) RPM
 - (1) Under Section 3. Sampling Requirements the color of the markers that are submitted and installed in the field needs addressed.
 - ii) SRPM
 - (1) Address what markers are actually installed

iii) Rawls: Seems as though the durability of markers has been on the decrease.

6) Next Meeting to be scheduled for sometime in April.

7) Adjourned @ 11:30 am.
