- ◆ Enhanced Navigation
- ◆ Bookmarking and Note-Taking
- ◆ Printable
- ◆ Portable

The Materials Standards are available in a web-based format that includes several enhanced features. Following is a description of these features and information on purchasing a subscription.

FEATURES OF THE WEB-BASED MATERIALS STANDARDS

Online Subscription and Automatic Updates

The web-based Materials Standards are available as a 12-month, renewable, online subscription. Once you purchase a subscription, you will have immediate online access, with nothing to download or install. As a current subscriber, you automatically receive access to all updates published during your subscription period.

Three Annual Updates

The Materials Standards are updated three times annually—in April, June, and August—with updates grouped by subject areas.

- ◆ **The April Update** revises the sections on Hydraulic Cement and Lime, Fresh Concrete, Hardened Concrete, Pavement Measurement, Bridge and Pavement Preservation, and Quality Assurance and Environmental.
- ◆ **The June Update** revises the sections on General Manufactured Materials, including Concrete Drainage Structures, Flexible and Metallic Pipe, Markings and Coatings, and Safety Devices.
- ◆ **The August Update** revises the sections on Geotechnical, and Bituminous Materials and Mixtures.

Access to Previous Editions

As a current subscriber, not only do you have access to the current Materials Standards and all published updates, you also have access to recent past editions, with changes between editions highlighted for easy reference.

Single- and Multiple-User Licenses

When you purchase an annual subscription, you will need to select the number of user licenses that best accommodates your organization's needs. You may purchase either a single-user license, or choose among several multiple-user—either 2-user, 3-user, 5-user, 10-user, or 25-user licenses—which will determine the number of users with concurrent access to the Standards. Multiple-user licenses also offer **deeper price discounts**, ranging from a **25% discount for a two-user license, a 33% discount for a three-user license, and a nearly 40% discount for a twenty-five-user license.**

PURCHASE A SUBSCRIPTION TO THE WEB-BASED MATERIALS STANDARDS

To purchase a subscription to the web-based Materials Standards, visit the AASHTO Bookstore online at <https://store.transportation.org>, and search by **Item Code, HM-WB**. Here, you can also view the publication's table of contents, as well as a list of the revised standards.
